

The Original 1911 Brand 8 Ounce Popcorn Machine

Whether the Original 1911 Brand - 8 Ounce Popper ends up in a bar, hotel, cafeteria, office, home theater or retail store, you will be assured of producing theater quality popcorn with turn-of-the-century nostalgia. Although designed after the machines used by vendors on the streets of America 90 years ago, the 1911 Brand Popcorn Machine incorporates 21st century technology. Hard-coat anodized aluminum kettles, stainless steel food-zones and a tempered glass cabinet insure that this popper is a snap to keep clean. The Original 1911 Brand 8 oz. Popper is backed by the industry's longest warranty for years of service.

1911-8 POPCORN MACHINE

This antique styled eight ounce popper is not only cosmetically appealing, but it is one of the most technically advanced poppers available today.

The thermostatically controlled 1250 watt aluminum kettle is hard-coat anodized, which combines the heat transfer properties of aluminum with the cleanability of plated surfaces. The 1911 popper produces eight ounces of perfect popcorn in about 3 minutes and it cleans up in seconds with just a damp cloth.

The 20" x 16" cabinet will keep 40 servings of popcorn fresh with its built in warming deck without taking up a lot of counter or table-top space.

ANTIQUE CART

This fully-functional, stylish antique cart is modeled after the type used when vendors roamed the streets of America back in the year 1911.

This rugged steel cart is powder-coated to the same color scheme as the 1911 Popcorn machine. Matching graphics and spoked-wheels make the antique cart the perfect place to display the 1911 popcorn machine.

The 20"w x 16"d x 15"h cart-body doubles as a storage area for your popcorn supplies while the 24" wheels and steel handle provide smooth and easy movement of the cart and machine. The cart comes with a 16"d x 11"w service shelf that can be removed in seconds without tools.
